DETAILED ACTION

Claims 24-26 and 29-38 are currently pending in the instant application.

Applicants have amended claims 24, 26, 29, 30, 36 and 38 and cancelled claims 27, 28, 39 and 40 in an amendment filed on March 28, 2007.

I. *Response to Arguments*

Applicant's arguments, filed March 28, 2007 with respect to the rejection of claims 36-40 under 35 USC 112, first paragraph due to lack of enablement; the rejection of claim 29 under 35 USC 112, second paragraph due to indefiniteness; the rejection of claim 29 under 35 USC 112, first paragraph based on written description and the rejection of claims 26-28 under 35 USC 112, second paragraph for omitting essential steps have been considered and persuasive. All of the above mentioned rejections have been withdrawn.

However, upon further examination of the current amendments to the claims, a new ground(s) of rejection is made in view of claim 25 under 35 USC 112, second paragraph for indefiniteness and 35 USC 112, first paragraph form written description.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112, 1st paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall

set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 25 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The "derivatives" of the compounds of formula 1 are not defined in the specification so as to know the structures of the compounds that are included and/or excluded by the term. Therefore, the specification lacks adequate support for Claim 25.

Claim Rejections - 35 USC § 112, 2nd paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 25 is indefinite for the reasons set forth above under 35 U.S.C. 112, first paragraph. Claim 25 is drawn to "a compound of the formula 1 and derivatives thereof." However, the "derivatives" of the compound of Claims formula 1 in claim 25 are not defined in the claims so as to know the metes and bounds of the claims. Therefore, the claim is indefinite
